Belly Button Therapy

Perform this therapy:

- First thing in the morning in bed
- While sitting on the toilet
- Before Ultimate Coffee Enema
- Before you exercise
- Before Cardio Med Bed
- Before you sleep.
- Belly Button Therapy releases more Dopamine, Oxytocin, Serotonin and Endorphins than any other process known. Within 6 to 7 minutes your body is in a parasympathetic state of alignment. Rest, Heal, Restore.
- Go to BHNAPP.COM / BraveHeartNationapp.com and go into the Evolve section of the Do It Yourself Guide and watch the Masterclass or read in the Perfect Day Guide all about Belly Button Therapy.

Clapper- Clapping for Life

- The more you clap, the better you heal. Clap all the lumps, bumps, knots and blocks.
- The more you bruise the more unhealthy your tissues are. Healthy people do not bruise. Clapping is the best way to diagnose the health of your body. It brings everything Emotional and Physical to the surface. Clapping should be done once a day, every day to help relieve stiffness and pain. Up to an hour at a time.

Clap lymph areas daily for 5 minutes

- Under the jaw, above clavicle on neck area, arm pits, inside arm where the elbow bends, behind the knees.
- If you are experiencing pain anywhere on the body, clap those areas as well until pain subsides.
- If you have sore knees, use both hands to clap both sides of your knees while sitting.
- Pain is a GPS. Do not manage pain; Master your pain. Go to BHNAPP.COM / BraveHeartNationapp.com and go into the Evolve section of the Do It Yourself Guide and watch the Masterclass or read in the Perfect Day Guide at: pdgfree.com

DOD Ultimate Coffee Enema

Go to BHNAPP.COM / BraveHeartNationapp.com and go into the Evolve section of the Do It Yourself Guide and watch the Masterclass or read in the Perfect Day Guide all about the DOD Ultimate Coffee Enema at: PDGFREE.COM

Wolfe Non Surgical (WNS) Treatment:

NAT PUT WOLFE NON SURGICAL BROCHURE INFORMATION

- First do 50 Pulses per square inch on the Wolfe Non Surgical treatment area before you start the treatment and 25 Pulses per square inch after the treatment.
 - WNS treated areas should have Cellsonic done each day - 25 Pulses per square inch to increase the healing and decrease the down time between treatments.
 - Biopton and Infrared light therapy on the WNS treated area, 3 times per day.
 - Apply DMSO Gel or DMSO Cream 3 times per day.
 - Apply Pain Away every half hour until pain is gone and then Muscle Restore Essential Oil every half hour to restore tissue completely.

- This protocol will help the Wolfe Non Surgical treated area heal quicker so that you can get your next treatment on this specific area sooner.
- If you experience swelling on any part of your body, you can take a Zip Lock Bag with structured water, add a few ice cubes in it and apply it to the pain area.
- If you experience stiffness, pain or swelling after a treatment, you can go swimming in the structured ionized pool or have a warm structured shower.

3-2-1 Rule

- Three Hours before bed - No Eating
- Two Hours before bed - No Drinking
- 1 Hour before bed - No Blue Light Poisoning unless you're wearing Tesla Hyperlight Glasses
- Try to be in bed by 8:30 pm. Great Night Sleep Right
